

## Customized Microscope Slides

- For glass slide requirements beyond the standard microscope slide offering
- Decades of experience creating OEM glass solutions to fit unique needs in custom printed slide masks, personalization, and barcoding
- Collaboration and support to create an exceptional product
- Expertise in high quality glass manufacturing and continuous improvement lead to successful OEM partnerships

## Customized Slide Offering

- Enhanced labelling with etched barcode onto the tab
- Customized/personalized glass slide designs, including printed logos, graphics, and colors
- Sophisticated printing techniques with proven slide processing and production systems
- Specialized packaging considerations to customer requirements
- Slide coatings are available to attract cells and tissue sections to the glass surface
- Clipped corner option

## Specialty Printed Slide Masks

- EpreDia offers hydrophobic printed masks with a hydrophilic glass well surface for enhanced sample spreading capability within the well
- Hydrophobic masks can reduce cross contamination from well to well

## Quality is the Foundation

- ISO 13485 certified for medical device manufacturing and FDA Registered
- Rigorous Quality Management system
- Manufacture of IVDR compliant products
